

# RESIDENT M&E MAINTENANCE LONDON

JCA maintains 160,000ft<sup>2</sup> of this high-end office space located in the financial heart of London. Services provided include mechanical and electrical maintenance, fabric and reactive repairs and any other project works required, with round-the-clock support. These are provided via a dedicated site manager and an integrated on-site helpdesk support to ensure effective, responsive and seamless service delivery in this prestigious environment.

*"We have been very impressed with the way JCA has managed the contract from day one. Since the start of the contract in January 2018, the site has been managed very well, reactive works are being handled quickly and the quality of reporting gives us the peace of mind that the building is in good hands."*

**John Sheppard, Facilities Manager at XL Catlin**
