

# RESIDENT M&E MAINTENANCE LONDON

IHS Markit is a London-based global information provider. JCA supplies hard FM M&E maintenance services at the client's London office covering three floors of a 20-storey multi-tenant building at Ropemaker Street.

We provide planned preventative and reactive M&E maintenance services, as well as small fabric repairs, through an experienced resident engineer. Thanks to our 24/7 services offering we can ensure effective, responsive and seamless service delivery in this prestigious environment. JCA's fully integrated approach allows us to support the client with any engineering projects or consultancy work required.
