

# RESIDENT M&E MAINTENANCE LONDON

JCA maintains this prestige 60,000sq ft building in Grosvenor Street, Mayfair, for our client, Vail Williams LLP.

Our team provides full mechanical and electrical maintenance services to the landlord areas of the building through a dedicated onsite resident engineer, site familiar mobile engineers and specialist subcontractors. A fully bespoke and live contract reporting dashboard was created for the client with our customisable Microsoft Dynamics 365 CAFM System.

*"We entrust JCA with the planned, preventative, and reactive maintenance and some project work at our flagship prestige client building in Mayfair. The senior management communicates with us in a regular reliable and collaborative manner, and the standard of management and online reporting via Microsoft Dynamics is very high. The site has been managed exceptionally well, with highly experienced contract team who can be relied on in every situation. The relief engineers are all site trained and of high calibre."*

Steve Hull, Senior Facilities Manager, Vail Williams
